

MTC – Most Trusted CIPP

50+

YEARS OF

- + INNOVATION
- + ENGINEERING
- + MANUFACTURING
- + INSTALLATION

For nearly 20 years, MTC has provided **best-in-class CIPP** and **customer service** to trenchless contractors across North America. Today, we still offer the **Most Trusted CIPP** in the industry.

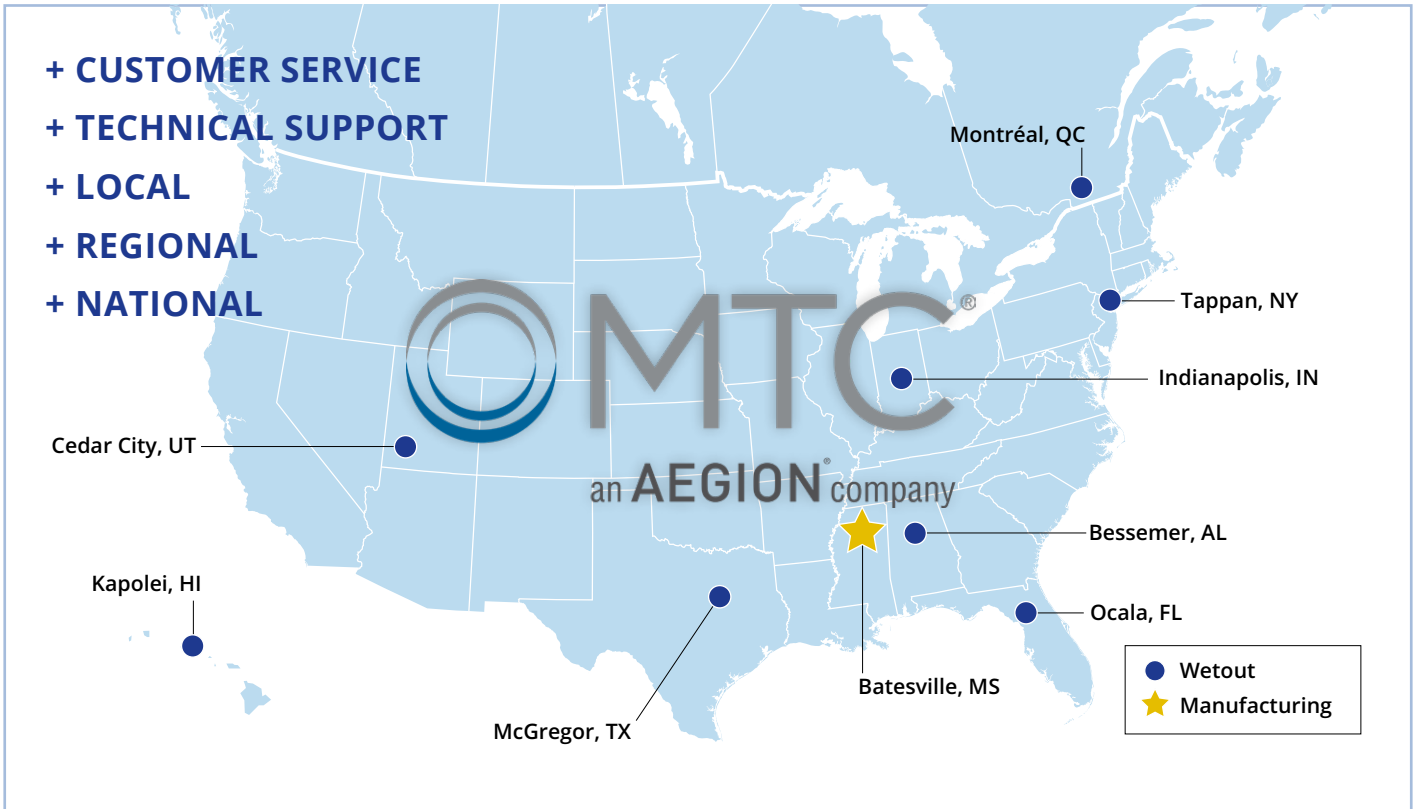

100+ CUSTOMERS TRUST MTC

We are the only supplier **born from** CIPP founders, **Insituform® Technologies**, and backed by more than 50 years of innovation, engineering, manufacturing, and installation.

Our **manufacturing plant** is the largest of its kind, producing more than **10 million linear feet** of liner annually.

Maintaining the most stringent **QA/QC testing protocol** means every liner goes through a **100% inspection** process to ensure that we ship the **highest quality** product.

In fact, we are the **only supplier** to perform a **dye bath test** on inversion liner under vacuum to **detect any pinholes** that could be present in the coated layer.

Gravity Liners

From the liner that started it all to project-specific variations of classic CIPP, our materials are trusted by contractors every day.

Insitutube®/MTube®

Felt, inversion CIPP
4" to 120"

Infusion®/Integra®

Felt, pull-in CIPP
6" to 72"

iPlus® Composite

Fiber-reinforced, inversion CIPP
15" to 96"

Core Benefits of CIPP

- + 100-year design life
- + New, jointless host pipe
- + Increased flow capacity

MTC liners are manufactured and wetout in ISO 9001:2015 certified facilities in compliance with ASTM standards D5813, F1216, and F1743.

Pressure Liners

Our robust offering of pressure-pipe liners provides trusted solutions for almost any drinking-water or sewer force main system – even through bends.

InsituMain® – I-Main™

Fiber-reinforced, inversion CIPP
6" to 96"
Felt + Glass, inversion or pull-in CIPP
Potable + Non-Potable

Pressure Pipe Liner – PPL™

Fiber-reinforced, inversion CIPP
8" to 60"
Potable + Non-Potable

Primus Line®

Multilayered Kevlar, pull-in
6" to 20/24"
Potable + Non-Potable

Reinforced Pressure Pipe – RPP™

8" to 60"
Non-Potable

Pressure Pipe Applications

- + Drinking mains
- + Fire mains
- + Sewer force mains
- + Cooling water lines
- + Process water lines
- + Industrial lines
